Introduction

Since **Passion Media Player** is a customized software solution the installation procedure may differ from standard software installations therefore we highly recommend that you read all the Topics and then install the Software.

Welcome

Thank you for showing interest in our product.

Passion Media Player (PMP) is a Software Application which can play almost all the formats of **Audio** and **Video files**. It is **customized** to cater the needs of **Singers, Musical instrument players** who are beginners or Professionals. It facilitates to Sing or Play with the help of **Karaoke Tracks**. These Karaoke Tracks are mostly available on **YouTube** or you can get them from other sources.

PMP is different than other popular players like Windows Media Player, VLC player etc in the sense **PMP** has a unique features of changing the Song **Key / Pitch** and **Tempo** of Audio and Video file.

So why to Wait!!!! Just Download the Evaluation Version and explore all the features of **PMP**.

May 2023

Getting Started

System Requirements

Passion Media Player recommends the following System Configuration,

- **Device** : Desktop PC or Laptop (Not supported on Mobile phone)
- **Operating System** : Windows 10 or Windows 11 (Not supported on I-pad / Mac/ IOS)

If you are using Windows 8 then contact us for installation.

- **CPU** : Intel i3 minimum / Intel i5 and above for better performance
- **Ram** : 4 GB minimum / 8 GB recommended
- **Hard Disc Space**: Around 90 MB for Software Installation.

The Data like Audio and Video files may take 25 GB to store 1000 tracks approx.

Hardware Specifications

1. Start using Software

You can use any Device (Laptop or Desktop PC) which satisfies the System Requirements. Speakers for sound output at **Home**,

- Use built-in speakers in Laptop. (Use good quality Headphones for better sound)
- Connect External speakers to your Desktop PC.

For **Public Performance** you need High wattage external amplifier system,

- Active Speakers (With built in amplifier / provision to connect microphones)
- Passive Speakers (Need Mixer / Amplifier separately)

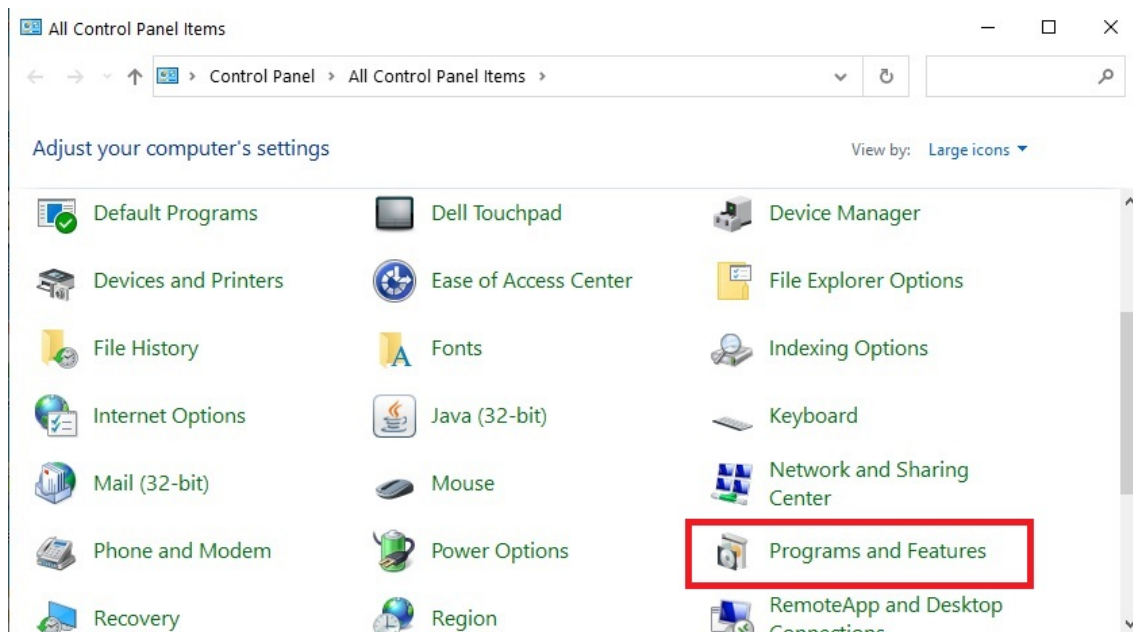

Third Party Software's

To install **Passion Media Player** we need the following Third Party Software's

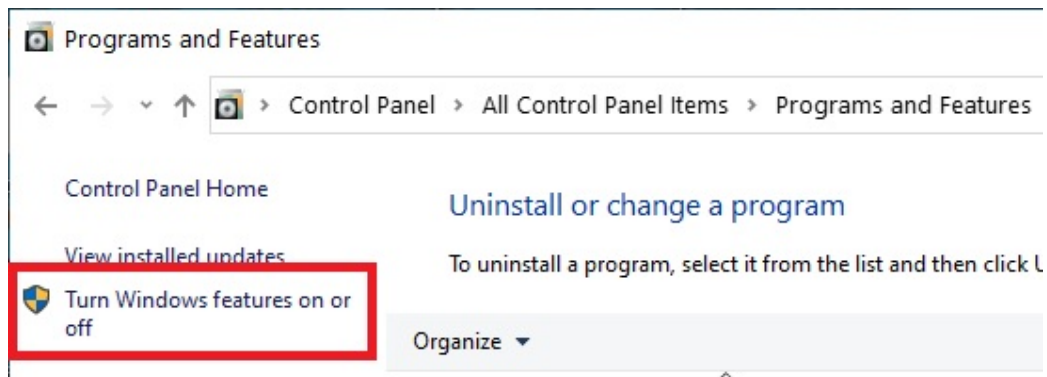

1. .NET Framework 4.8

By Default, during installation of Windows 10 / Windows 11 OS, this feature is installed on your Device. If you get the **Error Message**, means this feature is disabled. To enable **.NET Framework 4.8**, connect **internet connection** and follow the procedure given below,

Go to **Settings > Control Panel**

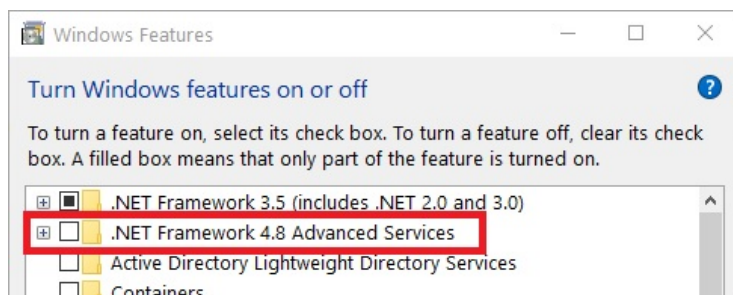

Open **Programs and Features**,

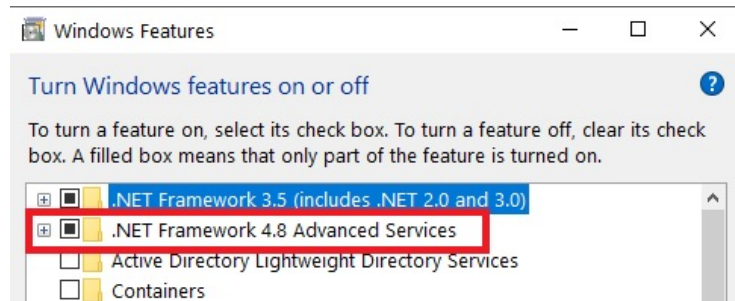

Click on **Turn Windows features on or off**

Check whether .NET Framework 4.8 Advanced Services is checked.

If not, check it.

Now click **OK** button located at the bottom of this window.

Just follow the procedure and click **Apply Changes**.

If your .NET Framework 4.8 Advanced Services is already enabled and you are still getting error then talk to your Hardware Engineer or you can contact us for help.

2. K-Lite_Codec_Pack

It is **mandatory** to have this Codec Pack installed on your system to run the Videos. Otherwise you will get error message of "Video not playing".

By default **PMP** setup will install this Codec Pack during installation process.

For more details about installation see topic [Installation](#)

Note:

- In normal course of installation you don't have to install this CodecPack yourself as **PMP** setup will prompt you to install and you have to follow further procedure keeping default settings.
- If you have any difficulty or do not have enough knowledge, please free to take our support.

Starting To install

Before you begin with Installation, see the following topics for smooth installation,

[System Requirements](#)

[Hardware Specifications](#)

[Third Party Software's](#)

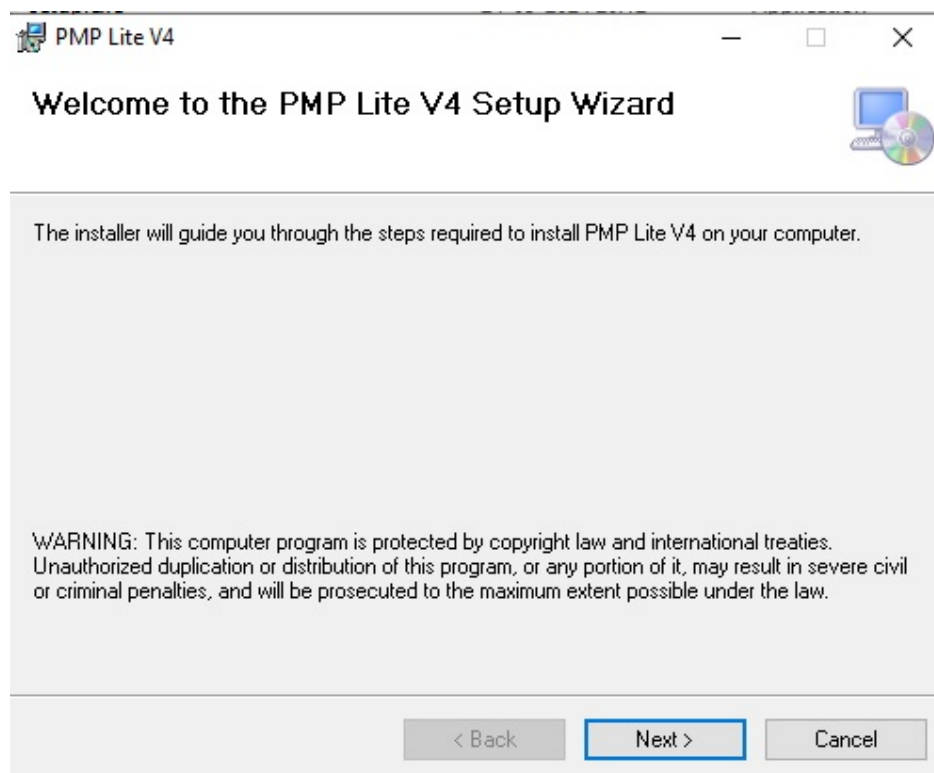

Installation

Open **Passion Media Player Setup** Folder,

You will find following files inside the folder,

Name	Date modified	Type	Size
 PMP Lite V4 Setup.msi	24-05-2024 20:12	Windows Installer ...	46,694 KB
 setup.exe	24-05-2024 20:12	Application	542 KB

Now double click on **setup.exe** file. The installation will start,

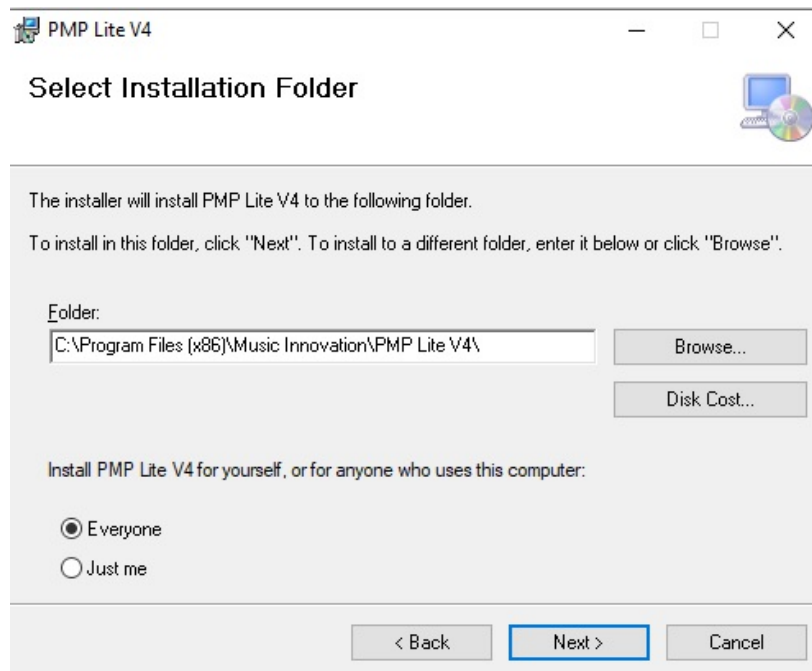

Click **Next** button

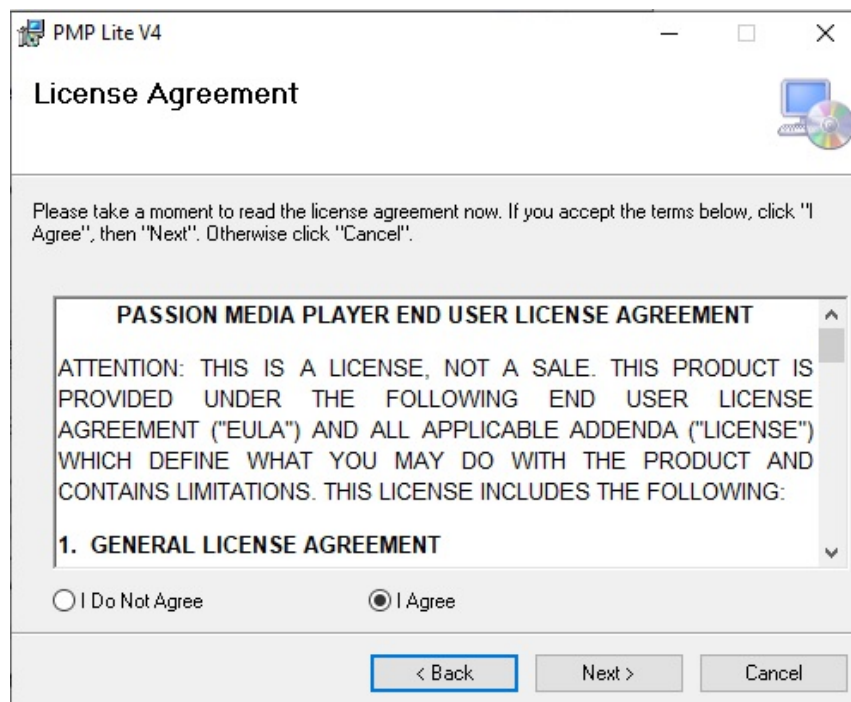

In the next window you can choose the location where you want to install the application. But it is recommended to keep the default folder location.

If you are reinstalling the software, note the earlier installation path and make sure that you have chosen the same path for reinstallation.

If you wish to change the earlier path then do not forget to copy your License files in the new installation path.

Click **Next** button

Read the License agreement and then you must click **I Agree** to proceed

Now just click **Next** in coming windows and finish installation.

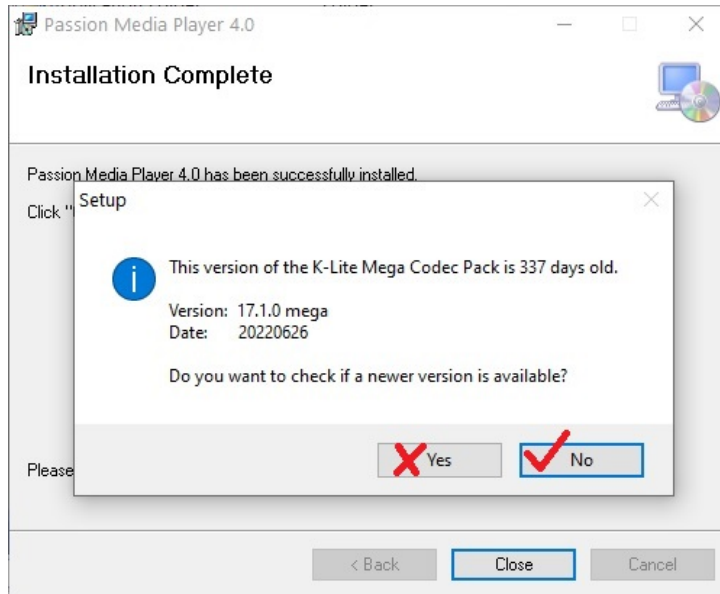

Copyright © **Passion Media Player 2023**. ALL RIGHTS RESERVED

Third Party Software Installation

To read more see topic [Third Party Software's](#)

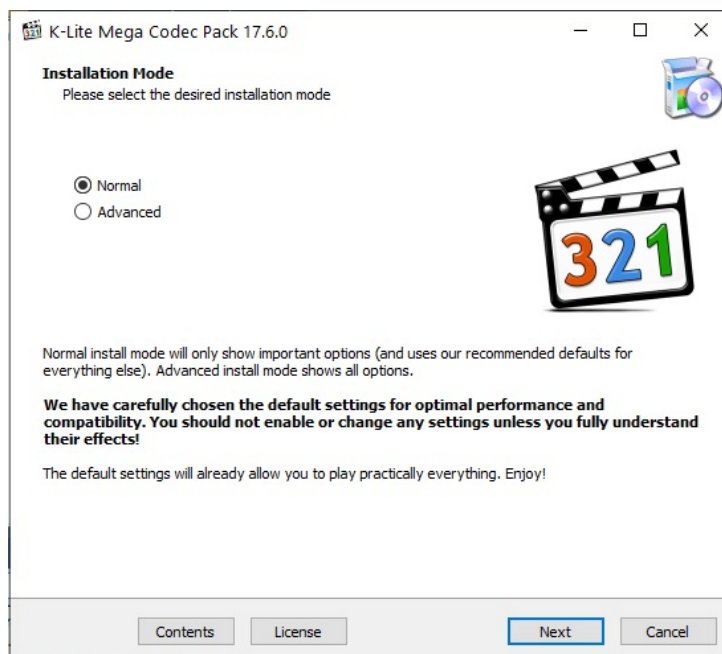

If you have already installed **K-Lite Codec Pack** then this software installation will skip this step and will give you Installation complete window directly.

If this Pack is not installed on your computer then following window will be opened,

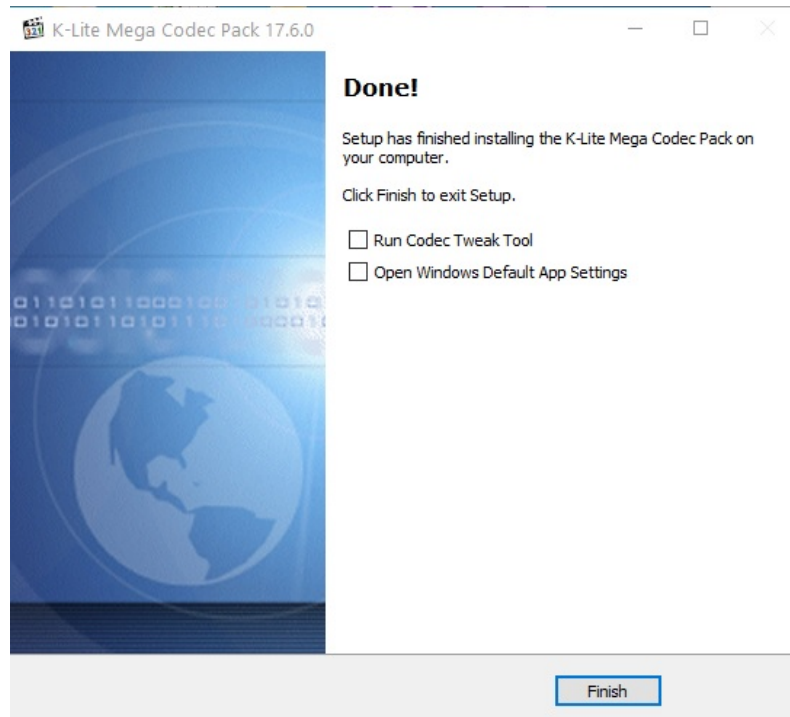

Since the manufacturer of this Pack releases frequent updates / new versions, this message box will pop up but you just click on **No** button and you will be taken to K-Lite Codec Pack Installation process.

Installation will start,

Now just follow all the default settings and finish installation.

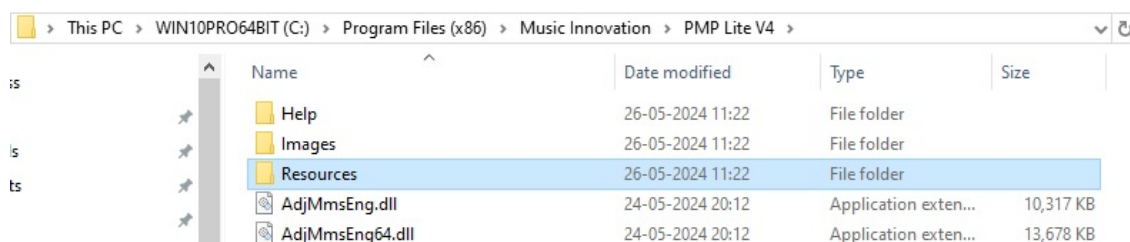

You will get window of successfully complete installation.

Manual Installation of K-Lite Codec Pack

In case you click on **Yes** by mistake, Don't worry Passion Media Player will be installed successfully but you will be diverted to K-Lite Codec Pack download page if you are connected to internet and if not connected installation completed window will appear. If you miss out K-Lite Codec Pack installation, then follow manual installation procedure given below,

Go to installation directory where you have installed the software and locate **Resources** folder.

Open the **Resources** folder, double click on **K- Lite_Codec_Pack_1760_Mega.exe**.
Installation will begin, just follow all default settings and complete the installation.

Congratulations !!!!!

You have successfully installed Passion Media Player. Note that this will be
Evaluation Version by default.

Locate the shortcut on Desktop and start using the software.

Once your evaluation is complete and you wish to buy it.

See the topic [How to obtain License](#)

Getting Software License

After Evaluation, if you decide to purchase the product then this is the Topic which explains how to get the Product License.

How to obtain License

Hope you have Downloaded Evaluation Version and installed!!!!!!

If you want to **Buy Passion Media Player** Software follow the procedure given below,

1. How To Buy a License?

PMP offers a **Software License** in file format.

For obtaining **Software License**,

- Visit again to our website [Music Innovation](https://www.musicinnovation.com)
- Login to your account.

Go to Store, add the product in to Cart and place the order.

Once order is placed User will get an E-mail on his E-mail ID.

Next User has to send a **License Key Information** to us.

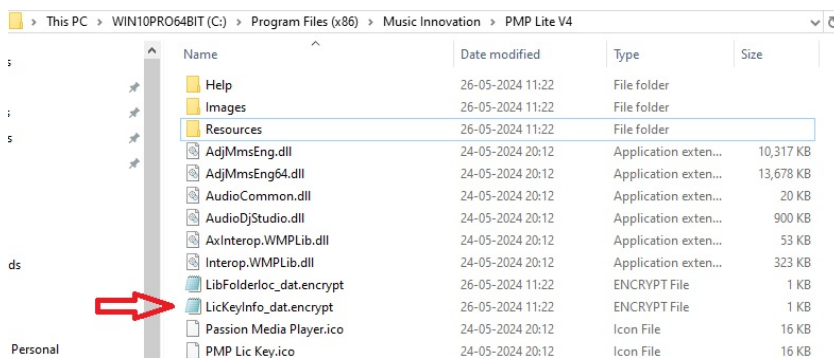

2. How To get License Key Information?

By default the Software is installed with Evaluation Version mode.

You can now send **License Key Information** in two ways,

1. The software will automatically create License Key Information file during installation at installation path,

Drive: \ Installation Path \ **LicKeyInfo_dat.encrypt**

Send this file in response to our order confirmation E-mail.

In case you are not able to locate the file, please contact us on our WhatsApp number So that we will help you to create this file.

After validating your license information you will receive another E-mail for payment in which a payment link will be given.

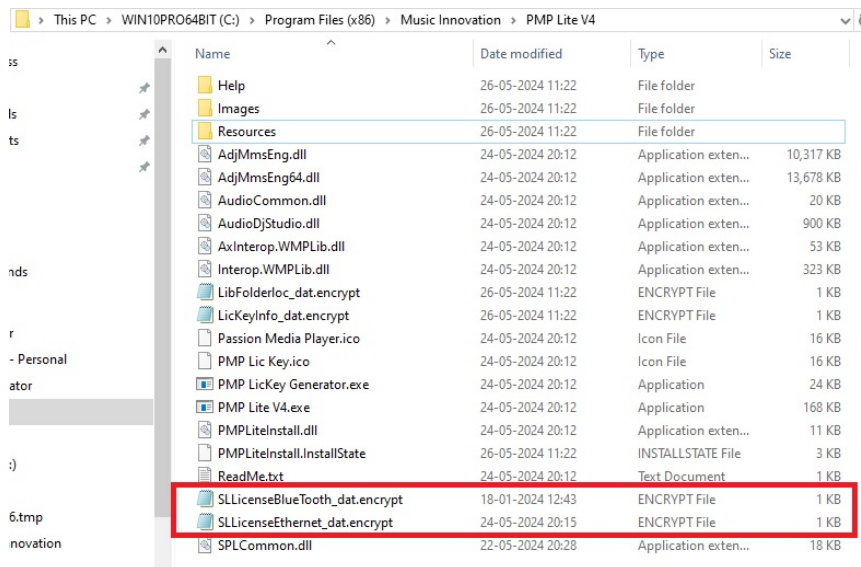

Make the payment and you will receive your license files on E-mail.

After receiving the License Key Information we will send you Software License files. Based on Keys generated on your device you will get the Software License Files as,

The Ethernet License File Name : **SLLicenseEthernet_dat.encrypt**

The Ethernet License File Name : **SLLicenseBlueTooth_dat.encrypt**

Copy these files to Installation Path and you are done!!!!

After opening the Software your Evaluation Version will be converted to Licensed Version.

How To Preserve License

Read the following notes carefully.

The Software License is generated for a particular machine (Laptop / Desktop) of which License Key Information is provided to us. Therefore this License is not portable and will not work on any other machine. We recommend that generate the License on machine which you will be using to run the Software permanently.

Formatting Entire Machine

You must take the backup of the following files,

- PMP software installation package
- Your License files

Take backup in any other partition except C:\ drive.

If you do not have other partitions then take backup on external device like portable hard disk or Pen drive.

After formatting, reinstall the software as per installation guide again.

Restoring your License

In case you have lost your license files, Send us license key information as explained in [How to obtain License](#)

We will send you License files on your E-mail.

Once you receive the license files, make sure you copy your license files to installation directory.

- Please **Note** that your license key information should be same as earlier one on which license files were issued originally. If in our verification we found different information then the request will be rejected assuming you have changed your Laptop or Desktop PC. In this case you have to buy new license.
- The License file / files given to you are in **Encrypted** format therefore you should not open it or edit the contents. It is recommended that you keep the back up of original License files at some secure place.
- In case the License files are tampered or corrupted (unreadable) and Software stops working, delete these files and copy original files from backup location.

If you have any License Issue which is not getting resolved feel free to contact us. We will help you out !!!!

User License Policy

- The License issued is a **Life Time** User License as long as it is being used on the same machine.
- As you know that we are selling you a Digital Product with soft copy of Software License therefore it is **Not Returnable**. Once we issue the Software License, it will not be taken back and **No Refund** will be given.
- Therefore we highly recommend that you evaluate the software capabilities till you convince that this is the product you are looking for and finally decide to buy it. For that purpose we are giving unlimited evaluation period to you with the only limitation of Tracks being played only for 30 sec.
- If you wish to change the Laptop / Desktop PC in future then you have to buy new License. The earlier license will be invalid.

How To Contact Us

For any Query or support you can contact us on,

E-mail ID : contact@musictechnovators.com

WhatsApp : +91-9970525600

If permitted by User we can provide on line support for installation through Remote Access by AnyDesk.
